Summary

Third-year applied computer technology student specialising in programming, working towards full-stack development. I'm curious by nature, like to understand how things fit together, and I'm looking forward to starting my career.

Education

BSc Applied Computer Technology · OsloMet · programming 2024 – 2027

BSc Nursing · VID Specialized University 2021 – 2024

Projects

Jeoparty Side project github.com/sakh26/Jeoparty demo
A Jeopardy game I built for my own birthday. Extended with custom question packs in JSON, an editor and automatic scoring. Spotify playback without a backend, solved with OAuth 2.0 PKCE.

Portfolio website github.com/sakh26/sakh26.github.io
Interactive CV and portfolio. All content lives in a separate translation layer that keeps Norwegian and English in sync, with light/dark theme and a downloadable CV.

Wedding website In progress
Full-stack project for a real wedding, with programme and venue information, RSVP via QR code and an admin page for seating arrangements.

Experience

Student Assistant, IT Service Desk · OsloMet Oct 2025 – present

- Assist students and staff with IT-related questions and issues
- Incident handling and guidance on IT systems, with administrator access in Microsoft Entra ID (Azure AD) and Intune
- Setup, loan and handout of PCs and equipment

Medical Adviser · Vertikal Helse / If Insurance Jun 2025 – present

- Advise customers and providers on health services, with strict demands on precision and documentation

Support Worker · Edvard Munch VGS, City of Oslo Sep 2024 – Jun 2025

- Helped create a safe school environment, working with teachers and counsellors

Registered Nurse and Care Assistant · Kristiansand and Oslo Jan 2019 – Aug 2024

- Shift lead for a full team: prioritised tasks and made decisions under pressure

Technologies

Languages: Java, C#, JavaScript / TypeScript, SQL, HTML / CSS
Frameworks: Spring Boot, ASP.NET Core, React, Bootstrap
Databases and testing: PostgreSQL, SQLite, Vitest, test principles (ISTQB)
Tools: Git / GitHub, GitHub Actions, Docker, Vite, Linux, Claude Code
Systems: Microsoft Entra ID, Intune

Languages

Norwegian (native), English (fluent), Kurdish (fluent)

Healthcare background

Registered nurse with experience from home care services and health insurance. I have worked closely with clinical software, documentation and user guidance in a sector with high demands on quality and accuracy.
